Allowable Subject Matter

- Claims 11, 16-18 are allowed.
- The following is an examiner's statement of reasons for allowance:

Independent Claim 11 recites, *inter alia*, wherein the controller determines the service provider change identification number from the calling terminal information, determines a changed service provider identification number based on the detected service provider change identification number, and determines a phone number of the calling terminal by combining the changed service provider identification number with the mobile identification number included in the calling terminal information; and the service provider change identification number has two digits, a first digit indicates addition or subtraction on the service provider identification number and a second digit indicates a weight for performing addition or subtraction on the service provider identification number. The prior art does not teach the recited steps in combination with the remaining steps and therefore the claim is allowed.

Dependent Claims 16-18 are dependent upon the allowed independent Claim 11 and are therefore allowed.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
